PRAJAKTA POL

Aspiring PLC & Industrial Automation Engineer | Pune / Solapur, Maharashtra
Email: polprajakta07@gmail.com | Open to Entry-Level Roles (Pune, India)

CAREER OBJECTIVE

Electronics and Telecommunication Engineering graduate with a foundation in PLC automation, industrial sensors, control systems, and embedded electronics. Passionate about solving real-world engineering problems and building reliable automation solutions.

EDUCATION

* Bachelor of Technology (B.Tech) - Electronics & Telecommunication Engineering
  N. B. Navale Sinhgad College of Engineering, Kegaon, Solapur | Year: 2026 | CGPA: 8.25 / 10
* Post Graduate Diploma in Industrial Automation (PGDIA)
  Status: Completed | Siemens PLC, Allen-Bradley PLC, Industrial Sensors, Automation Fundamentals

TECHNICAL SKILLS

* PLC & Automation: PLC Fundamentals, Ladder Logic, Siemens PLC, Allen-Bradley PLC, Industrial Sensors, HMI/SCADA Fundamentals, PROFINET & Industrial Communication, Control System Troubleshooting
* Electronics & Instrumentation: Analog & Digital Electronics, Sensors & Signal Interfacing, Relays, Contactors, SMPS, MCB, Overload Relays, Hardware Testing & Troubleshooting
* Embedded Systems & IoT: ESP32, Sensor Integration, Wi-Fi IoT, ThingSpeak, Telegram Bot
* Tools & Programming: PLC Simulation Software, Basic C Programming, Documentation & Testing

INTERNSHIP & PRACTICAL EXPOSURE

* DRDO Internship (2026) - Project Exposure & Instrumentation Learning
  Exposure to Gamma Ray Spectrometer, dosimeter, RF & radiation-hardened connectors, and Cobalt-60 gamma radiation source chamber.
* Laxmi Controls, Solapur (2025) - Panel & Automation Internship
  Exposure to industrial electrical control panels, DIN rail hardware, relays & contactors.

KEY ENGINEERING PROJECTS

* Water Quality Monitoring System (ESP32, TDS, pH, Turbidity, Temp, PCB, ThingSpeak)
  Multi-parameter real-time sensor acquisition with IoT cloud telemetry.
* Smart Energy Meter (ESP32, ZMPT101B Voltage Transformer, Wi-Fi, Telegram Bot)
  True RMS AC mains voltage monitoring and automated notification alerts.
* Smart Encrypted Walkie-Talkie (ESP32, ESP-NOW, AES-128, I2S Digital Mic)
  Low-latency encrypted peer-to-peer digital voice communication.
* Silk Fibroin Membrane Water Filter
  Research-oriented nanofiber biomaterial membrane synthesis for water filtration.
* PLC Industrial Automation Practice
  IEC 61131-3 Ladder Logic: DOL Motor starter with latch, timer (TON), sensor part counter.

HONORS & AWARDS

* Best Oral Presentation - 2nd Int’l Conf. on Silk Fibroin & Sericulture Resources
* Best Research Paper - NCRTC 2025
* First Rank - Ideathon Spirit 2K25, SVERI
* Participant - Prometeo’25, IIT Jodhpur | T&P Student Volunteer
